Solidarity message from the Council of Nordic Trade Unions, NFS, to the people and labour movement in Barcelona and Cambrils.

Our deepest condolences in order of the tragic events in Barcelona and Cambrils on the 17th of August 2017. We, the Council of Nordic Trade Unions, NFS, want to convey our deepest condolences and express our solidarity and support to victims, victim's families and the people of Barcelona and Cambrils in order of your terrible loss.

We condemn the horror of the events and the attack against innocent people Barcelona and Cambrils on the evening of the 17th of August 2017 and want to convey our profound gratitude to emergency workers and personnel dealing with the consequences of the incident. All acts of terrorism are an attack on our fundamental values of freedom and democracy. The trade union movement represents human equality, solidarity and peace. The brutal act of terror is directed towards these fundamental values. It is carried out to divide and undermine freedom, openness and democracy.

The Council of Nordic Trade Unions represents 9 million employees, in all areas, sectors and branches of the labour market in the Nordic countries. We stand together with you in your trying time in the fight for democracy, peace, social rights, and decent jobs and living conditions for all - it is the best protection against terrorism.
